

ASSETS		KEY THREATS
ECONOMIC	Water Use	Reduced flow
		Nutrients, sediments
		Salinity
		Land use change, land clearing
		Population pressure
	Land Use	Salinity
	Weeds	Pest animals
		Soil Deterioration
		Land use change, land clearing
		Poor on-ground management
		Inadequate strategic management
	Infrastructure	Disasters
		Salinity
	ENVIRONMENTAL	Coasts & Marine
Weeds & pests		
Poor on-ground management		
Land use change, land clearing		
Population pressure		
		Inadequate strategic management
Surface waters		Reduced flow rates
		Nutrients, sediments
		Salinity
		Poor on-ground management
		Inadequate urban/ industrial waste
Vegetation		Land clearing and poor vegetation maintenance
		Weeds
		Poor on-ground management
		Pest animals
		Land use change/ conflict
		Knowledge limitations
		Inadequate strategic management
	Inadequate resources	
	Fauna	Land clearing, land use change, pest animals
Inadequate resources		
SOCIAL	Community	Inadequate strategic management
		Limited knowledge, limited human capacity
		Population pressure
		Land use change/ conflict

**TABLE 20.** PRIORITY THREATS TO ASSET VALUES IN THE REGION
