

ASSET	THREAT	RESOURCE CONDITION TARGETS	MANAGEMENT ACTION TARGETS
Vegetation	Land clearing, land use change, salinity, weeds, pest animals	AF. To maintain the extent of all native vegetation types to at least 2002 levels.	<p>79. By 2007, improve the capacity of key institutional partners in native vegetation management to be able to meet statutory requirements of net gain standards.</p> <p>80. By 2007, establish a benchmark of native vegetation extent and quality through mapping 90% of the Region's native vegetation at appropriate scales.</p> <p>81. By 2007, protect 2,500 ha of high priority EVC remnant vegetation on private land (to a standard such that it can be accounted for within the Regional CAR system).</p> <p>82. Progressively implement the draft Corangamite Native Vegetation Plan (2003).</p>

TABLE 33. TARGETS FOR THE REGIONAL ASPIRATION - ACHIEVE A NET GAIN IN QUANTITY AND QUALITY OF NATIVE VEGETATION ACROSS THE ENTIRE LANDSCAPE
